They possess all the modern improvements which conduce to health and comfort, as a superior system of lighting and ventilating, the very best provisions, and the most attentive to their extensive and unparalleled assortment of Plain and *Elegant* new styles.

The Captains have been carefully selected as first-rate sailors and men of humanity, and an experienced Surgeon is attached to each Ship, and no expense is spared to render this the most comfortable and most popular Line.

As Train & Co. have made such arrangements in Liverpool as will PROTECT their friends from the frauds and impositions sometimes practised there, it follows that those who pre-pay passages cannot but see the advantage of using able to engage with a Respectable House, on favorable terms, for a well known Line of Magnificent Packet Ships, and in this way avoid the disrespect, annoyance and delay which they so often experience, when they engage with Agents who are but slightly connected with transient Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most exact fulfillment of all their engagements, we are permitted to refer to the very Rev. THEOBALD MATHEW, Cork, Ireland.

We also subjoin the following testimonial from the Right Reverend JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, Jan. 19, '54.

In Senate, a bill has been introduced by Mr. West, of Greene Co., to abolish the Emigrant Agency. There seems to be quite a feeling in the Senate in favor of such action, but in the House, I think it is different. Something depends upon the amount of buttonholding done before the question of the continuance of the Agency comes up.

Senator Wakely presented a couple more bills directed at the unfortunate Statutes. Two bills passed, one of them the amendment to the charter of the Lake Shore R. R. Co. It is satisfactory to the Company, and will doubtless pass the House promptly. The bill is needed to enable them to obtain the right of way in some cases. Their contracts, I understand, are all given out, and the work going on well, but may be delayed unless this bill passes. A similar bill was introduced in the House, in order that it might be pushed, if there was delay in the Senate, but it will sleep probably, if the other passes.

The Senate voted this morning upon the reports in the case of the Rock Co., contested seat, and by adopting the majority report, confirmed the sitting member, Mr. Harvey in his place, by the following vote:

Ayes—Allen, Blair, Bowen, Cary, Dunn, Grant, Howell, Loy, Mantz, Miller, Smith, Sterling, West, and Whittlesey—15.

Noes—Bashford, Eldridge, Vittum, and Wakely —4.

I send you for publication a copy of Senator Heyment's bill for a Prohibitory Liquor Law.

The House had quite an interesting session for so early a day. The general features of the day's work, you will have gathered from the telegraph report. I proceed to some details which were not sent by that medium. A large number of claims were presented and referred to the Committee, at the head of which stands Mr. Hale, of Kenosha, and the probability is that few unfounded claims will pass his vigilant eyes. I think, too, that he is fearless enough to report against an unjust claim.

Mr. Morrison, of Jefferson, introduced a resolution, intended to stop the practice of sending newspapers here which are not ordered by members. It may pass, but nothing will come of it. Papers *will* come, and *do* come, directed in blank, to Senate and Assembly, a full supply all around, and the bills will come at the end, and be paid. This is a very liberal legislature.

Another resolution, calling for a report as to the *outstanding loans from the School Fund*, with names of parties, and statement as to payment of interest &c., has been introduced, and lies over.—The answer will be worth seeing, and will solve some doubts in the minds of the people, if a correct report is made. Let us have light!

A bill chartering the "Sauk City Bridge Co." has made its appearance. It is probably Monsieur Tonson come again. I have a very distinct remembrance of a bill, under another name, I think, but for the same purpose, being killed dead as many as four times in the session of 1852. The House adjourned under the impression that it would stay dead; but just after our stage load, a part of which was Speaker Shafter, had travelled a few miles out, some one informed that executive that he had been *tricked into signing the bill* the night previous! He was mad as a March hare at the trick, and stated that he should block the game after all. How it was done, I don't know, but the charter never came upon the Statute book. Now we have it again; but it comes with better grace, Mr. Remington, the Sauk Co. member, moving its reference to the Judiciary Committee to report whether it would infringe upon the chartered privileges of the old Bridge Company. Mr. McIndoo, however, moved that the bill lie upon the table for 10 days, to give time for remonstrances to come in; and the House so ordered. I understand that Mr. McI's objections are not in behalf of the old bridge company, but of the lumbermen, whose facilities for rafting would be interfered with.

The resolution concerning the printing of the Reports was put through in double quick time this morning. In addition to 2000 copies, in pamphlet form, of the reports of the Secretary of State, Treasurer and School Superintendent, State Prison Commissioner, Couptroller, State Geologist, &c. &c. in English, by the State Printer, it orders 500 copies of each, from each of the offices of the *Banner* and *Volksfreund*, (German), and *Emigranten*, (Norwegian), at no fixed price. It is a good thing to be a printer in a foreign language in Wisconsin; especially it is a great thing to be a printer of the favored newspapers. There are a dozen other papers in German, whose proprietors are no better off than are the English papers. The whole system, or custom, of ordering these reports of any one but the State Printer, is wrong, and would be so understood, were there any respect paid to the law. The vote for this order on the press was as follows:

AYES—Baker, Barnes, Beecroft, Bell, Bernhard, Crawford, *Desnoyers*, *Earnest*, *Gary*, Gibson, Hadley, Haggerty, Hale, Hull, Harrington, HART, HEAD, Jeffrey, *Joiner*,, Ketchum, Knowlton, *Kyle*, Lovie, Mattes, *Matz*, *McCracken*, *McIndoe*, *Mitchell*, Morrison, Noggle, Norton, O'Niel, *Orton*, Parker, Parkison, *Reed*, Reinhardt, Remington, Rich, *Rood*, Rosenthal, Schantz, *Scott*, John Smith, Talmadge, J. L. Thomas, M. J. Thomas, *Tray*, Tobin, Torbert, Webster, West, Wheedon, Wright, Zimmerman, Horn—56.

NOES—*Allen*, *Atwater*, Barney, BARTLETT, Boerner, *Colley*, Davis, *Donaldson*, *Estabrook*, HOOKER, *Lake*, McCormick, *Nichols*, SPAFARD, SPALDING, JESSE SMITH, *Topliff*, Wheeler, *Whiting*, *Worthington*, Young,—23.

Mr. Thomas, of Fond du Lac, in urging the necessity of the GERMAN printing, said that there was a population in Wisconsin *two-fifths* German. If I recollect right, in 1850, the German population was about one-fifth of the whole. I doubt whether it has increased in any greater proportion.

Mr. Earnest, from the committee on mining, reported verbally the opinion of the committee in regard to Prof. Daniel's Report, that it is a very valuable and interesting one, and offered a resolution for its speedy publication, to which the House agreed.

Mr. Worthington, from the committee on the brief as the Governor's allusion to that affair—concluding with a resolution complimentary to Capt. Ingraham, which passed. So that matter is despatched, and no more time will be wasted with it.

In committee of the whole, two bills, of some interest, were considered, and disposed of, so far as the committee could do it. One was to pay E. G. Ryan $3,000. Mr. Hale moved to add about $133, being interest and costs of the Supreme Court proceedings, and this was declared carried by a very close vote. Coming into the house, after a brief debate, in which Knowlton urged that the decision of the court, which the law made the arbiter, ought to be obeyed, and Mr. Lake expressed an unwillingness to vote for so outrageous a sum, if it could be avoided, the Speaker declared the bill ordered engrossed, though I had doubts.

The other bill was the one ousting the State Agricultural Society from its room in the basement of the Capitol. An amendment was presented and passed, giving the Society $200 for fitting up anot er room elsewhere, and so the bill was ordered to a third reading. There was an immense deal of disclaiming of any desire to strike at the "Agricultural interests." What a world it is!

As I thought yesterday, the appropriation bill for Mr. Miller passed to-day. *Mem.* An appropriation bill, defeated one day by a small disparity of votes, is sure to pass the next day by a good strong vote.

Talking about the School Fund, Illegal Fees, &c, certain things have transpired here lately which are likely to create a shaking among the dry bones. As the circumstances are told to me, a Mr. Blackwell, of Cincinnati, has been making entry of a large amount of school lands in the northwestern counties—40 or 50000 acres. The Board of Commissioners insisted upon giving him a great number of certificates, charging the fees for each. There was delay in the making out of these papers, and Mr. B. went away leaving with the Treasurer the payment required by law, and a large amount—some say $1700, for the fees. On returning a short time ago, the papers were not yet ready, and Mr. B. hired a clerk himself, to expedite the business. When they were all made out, he turned to the Treasurer, and made demand for the money which he alleged that they had received unlawfully. The Treasurer consulted with the Attorney General, and refused to pay it over, and suit has been brought for the amount. It is said, too, that others are about to commence like suits. So you see that the thing has come to a head at last. The above statement is beyond a doubt correct as to the material facts.

If the fees taken by the Board *are* legal, I hope that *they* have taken enough to eke out the mean pittance which the law allows them to a respectable salary. There is no reason why the State of Wisconsin should seek to obtain the services of a Treasurer, giving an enormous bond, and having charge of great amounts of money, for a salary of $800; about as much as a porter at a second-class hotel could earn. The other officers are as meanly paid. The Governor *must* lose money at his salary of $1200—and so with the others, except the Attorney General, who, judging from the past, has scarcely earned his pay.

If the fees are illegal, and it seems clear enough that such is the case, there will be music all over the State, now that the ball is opened.

W. H. W.

MADISON, Jany. 21, '54.

The resolution relative to the documents in foreign languages did not come back to-day from the Judiciary Committee, but I understand that the report will be to the effect that it does not violate the Constitution or contract with the State printer, inasmuch as the law only called for bids for printing "in English." It is a capital hit, for our cotemporaries of the German, Norwegian, and Dutch tongues.

In Senate this morning, the *Nieuwsbode* was directed to furnish 500 copies of the Message in Dutch, and the State printer 200 in French.

In the same house Mr. Hunter presented the memorial of the Milwaukee and Rock River Canal Co.—for "relief," I suppose, having been unable to get at the document. It is referred to the committee on the Judiciary. If the memorial *is* for relief, I do not see why the Company does not take advantage of the law passed last winter in behalf of claimants against the State.

Among the bills passed in Senate was one repealing chap. 79 of the laws of 1853, which is the law regulating the relations of bills, notes &c., to certain holidays. This being a changing world, it is quite probable that the bill will pass the Assembly, and thus the old statutes and common law resume their operation, until the next Legislature can have a turn at them. The bill authorizing certain owners of property in the north part of Milwaukee, in the 2d ward, to lay out a park, also passed.

In the House, the papers in another contested seat case were presented and referred to the committee on Elections. Mr. J. H. Wells, of Berlin, Marquette Co., contests the seat of Mr. Nichols, on the ground that the board of inspectors of election, in one town, did not send their oath of office to the county board of canvassers with the poll-list, but left it with the town clerk. I understand that the Committee, as is frequently said of juries in very clear cases, "returned a verdict for the defendant without leaving their seats." Next, we shall have a bill for mileage and *per diem*.

Col. Shaw's memorial has been referred to a select committee, consisting of Messrs. Hull, Knowlton, Scott, McIndoe, and Atwater. Believing that the old gentleman has, beyond a doubt, been grievously injured by the acts of the state officers, it does seem to me nothing more than fair that the state should make him some remuneration.

Mr. Webster, of our city, introduced this morning a joint resolution ordering 500 copies of the "Industrial Resources of Wisconsin, by John Gregory, (here follows the Alphabet,) and author of various scientific works." He moved its reference to a select committee, and it was so referred.

The use of the Assembly Hall is tendered to Prof. Daniels, the State Geologist, for Tuesday evening next, for a lecture, and, for one, I anticipate a very interesting lecture, and think that the Legislature will be satisfied of the waste of breath of those who decry the energetic, hardworking professor. I very well remember the hostility which the bill organizing the bureau, if I may so speak, met with from members in the West; and have been gratified to see that it has already achieved its own vindication.

Mr. Webster moved this morning the reconsideration of the vote which passed the appropriation bill for E. G. Ryan. There was a motion to lay upon the table immediately, and several members rising to debate it, the whole matter was thrown over to Monday, under the vote prohibiting debate on Fridays and Saturdays. The bill has gone to the Senate, where a motion to put it on its passage, under suspension of the rules was lost.

Several bills of importance came up in the file in committee of the whole, but were laid aside under the rule. After getting through the file, the committee commenced again upon those which elicited debate, and the bill repealing the small bill law was taken up. It is the substitute reported by the Judiciary Committee, and is a remodeling of the bill prohibiting unauthorized banking, leaving out all which refers to the circulation of bills of a certain denomination. An amendment, throwing the burden of proof, in cases of complaint, upon the defendant, was rejected, and at this point the committee rose without concluding its labors on the bill.

There was nothing else worthy of particular note, done in either house.

In adding the brief postscript this morning to my letter of yesterday, stating that the mercury stood at 18 degrees below 0, I thought I was telling a pretty large story, but what will you people in Milwaukee—who, as we learn by travellers, are covered up under three or four feet of snow—say, when I assure you that by two or three reliable 30 degrees below zero, at 7 o'clock A. M. this morning. That may be called good healthy weather.

Monday, 23d, 9 *A M.* We are all curious this morning to know what can have become of Milwaukee and the other eastern portions of the state. We had no mail on Saturday, and only a despatch on Saturday evening, stating that the morning train that day from Milwaukee could not get through the snow, and had to go back to bring out laborers to dig out the track. So we have waited patiently 36 hours more, but yet no mail has come—no passengers have come—no any thing. With those of us who hail from Milwaukee, the circumstances, odd in themselves, excite various odd ideas. We suppose the white, fleecy covering to be in the streets some 4 or 5 feet thick, and in the gutter more of it, so many of them having been already filled and frozen. We suppose Marshal O'Tico, returned safely from lobbying for the office of Emigrant agent, as active as usual in notifying people to clean the sidewalks. We suppose all sorts of remonstrances, for the tradesmen won't care to pile up a mountain wall between them and the road-way. We suppose all sorts of vehicles, from fancy swan cutters to crockery crates, to be dashing through the streets, and the dashing hunters, with fox-tail caps and wolfskin robes, to be "sleighing the deare" at an unmerciful rate—for the horses—up East and then down West Water street, so as to cross all the bridges, taking toll at each. We suppose—but that last idea, together with a remark which has just fallen from somebody, who stands between me and the stove, warming his skirts, takes away my breath. At 7 o'clock this morning, a thermometer, thrust out of a window of the Assembly chamber, immediately marked 24 degrees below 0! call it 30 degrees at 5 o'clock. Just now, it stands at 20 degrees. That will do.

The snow is about a foot in depth hereabouts, and the sleighing fine. Grain coming in rapidly, and as high as 90 cents has been paid for winter wheat. Push along the railroad. The snow will protect and nourish the wheat in the ground, and with a favorable season for ripening and harvest, Wisconsin farmers will gather a magnificent crop; and the prospect is fair for good prices in the fall, when

"The banded sheaves stand orderly
Against the purple Autumn sky
Like samles of Prosperity."

W. H. W.

The Three Cold Days.

The extreme cold weather of the last few days is rather a new experience in Wisconsin. We doubt if colder weather was ever known here.—It seems, too, to have extended, far and near. As we came thro' Michigan, Saturday, we were informed that the mercury ranged that morning, at different points on the line, from 14 to 20 degrees *below* zero, and Monday morning must have been still colder. The Rail Road trains and the Mails have been badly mixed up and kept back by the severity of the weather. We have already spoken of the detentions on the M. and M. Rail Road, which were remedied as speedily as possible and by the most energetic efforts of the employees of the Company, headed by the indefatigable Superintendent, Mr. BRODHEAD. The Rail Roads in Illinois suffered in a still greater degree; trains being stopped on the track from 24 to 36 hours by the freezing up of the Locomotives. On both the Southern and the Central Michigan Rail Roads similar detentions, tho' of shorter duration, occurred; but in regard to the latter road the unavoidable delay was partly compensated by the provident care of the Conductor, Mr. RICE, who kept his passengers well-fed and well warmed and consequently in good humor.

Our exchange and correspondence have been considerably deranged by the mail failures and detentions; but we give a pretty large instalment to-day and hope to make up arrearages by to-morrow. Our own letters from Hamilton and Chicago kept us company home, so that we shall figure, for a day or two, in the double capacity of editor and correspondent. We have no doubt that our readers, equally with ourselves, were entirely content with the excellent substitute who occupied the editorial arm-chair during our absence.

☞ See our Madison Letters for some interesting items of news from the Capital.

THE NEWS BY THE NIAGARA. We give this morning some further details by the NIAGARA.—As reported by Telegraph, it is a little blind, especially the paragraph relating to Napoleon and the Czar. The danger of general European war seems imminent. The New York market of yesterday exhibits an advance of nearly A DOLLAR A BARREL on Flour, consequent upon this intelligence.

MURDER AT ST. PAUL.—The Hudson *Journal* of the 12th instant states that on Monday night the 26th ult., two citizens of St. Paul, named John Clark and Philip Hull, were assaulted and struck down, by some unknown fiends in the shape of men, who were armed with slung-shot. The skulls of both were fractured. Clark died on the following Friday, and Hull on Wednesday, the 4th inst. Sheriff Fridley has offered a reward of $500 for the arrest of the murderers, but as yet no trace of them has been found.

THE DETROIT DAILY INQUIRER.—Such is the name of the new paper started at Detroit by REUBEN HOSMER and THEODORE WILLIAMS. The INQUIRER wins friends and renders at once by its good looks and will retain all that it thus wins; for it cannot fail in our friend HOSMER's hands, to be a well edited, vigorous, manly and independent journal. We wish it and its conductors all possible success.

STEVENS POINT.—We learn from the *Pinery* that Stevens Point now contains 91 dwelling-houses, 10 or more stores, 20 work shops, 5 taverns, 98 families, besides saw-mills, school houses and churches, and a population of nearly seven hundred, the healthiest people in the world.

The same paper contradicts the report that the Stevens Point Land office is closed.

GREAT WESTERN RAIL ROAD.—This grand thoroughfare thro' Canada is now in the full tide of successful operation. Trains leave each end of the route (Detroit and Niagara Falls) daily, going thro' in 10 hours. As the Spring Travel opens, additional trains will be placed on the route and the time shortened to 8 hours. We can commend the road to our Wisconsin readers as in all respects an admirable one.

GODEY'S LADY'S BOOK.—The February number of this popular periodical is rich in embellishments, and full of pleasant reading matter. The publisher spares neither pains, nor expense to keep up the character of his Magazine and to meet the strong competition of Harper and Putnam. The "Lady's Book" is sent to subscribers at $3,00 per annum.

"ANOTHER IMPEACHMENT REMOBED."—Under this heading the *News* of yesterday morning announces that W. K. WILSON, of this city, is busy at Madison endeavoring to get up another Impeachment of Judge HEBBELL. We think it will be some time before the People of our State can be persuaded to indulge a second time in this expensive luxury.

"A FALSE ALARM."—The Appleton *Crescent* notices and indignantly denies the rumor, in circulation at Madison, that the Fox River Improvement Company has failed and ceased to redeem its paper. The *Crescent* is authorized to say that there is not a shadow of truth in the story.

M. AND M. RAIL ROAD.—A Passenger train came in from the west at 4 P. M. yesterday, and another, as well as two Freight trains, expected last night. By to-day, the trains will be running regularly. There is an immense amount of produce at the several stations, awaiting transportation to Market.

☞ Mr. J. Movius, formerly of Detroit, and for two years past connected with the Michigan Central Railroad office in Buffalo, has been appointed the general agent at that point of the

THE RAILROAD CELEBRATION AT HAMILTON.

HAMILTON, Canada, Jan. 20, 1854.

The Excursion Train for Hamilton, which left Detroit at half-past 10 o'clock Thursday morning, consisted of five Passenger cars, containing as merry a company as ever started on a similar trip. It was my first Railroad experience in Canada, and it proved in all respects agreeable. We found the cars roomy, elegant and well-ventilated; the conductors and other employees of the Company civil and efficient, and the road itself one of the very best on this continent. The distance from Windsor (opposite Detroit) to the Niagara river is 228 miles. The Detroit River is crossed by a steam ferry boat and the Niagara by a Suspension bridge. The road is built in the most substantial manner; the curves are few and gentle, the grades easy and the guage 5 feet, 6 inches. From Windsor to London (110 miles) the route traverses a level, well-timbered and arable tract, which for all purposes of grain-growing, compares advantageously with the Prairies and Oak-openings of the West. Between London and Hamilton (180 miles from Detroit) the country is more broken, but still beautiful. The expense of constructing this portion of the road was much heavier than on the Western section, and the twenty miles west of Hamilton must have cost fifty, or sixty thousand dollars a mile. The rail is a heavy one and the lengths are so joined together as to make it substantially continuous. All who traversed the road agreed in pronouncing it the smoothest they had yet found; and as its general direction varies but little from an "air line," and the curves are of large radius, it can be run safely at a very high rate of speed. We made the run, from Detroit to Hamilton, including all stops and detentions, in less than 9 hours, and it is intended to make the regular trip, between the Detroit and Niagara rivers, in from 8 to 9 hours. It cannot fail to become—and that speedily—a favorite route for travel and traffic between the interior and the sea-board.

There are several important and thriving towns and cities along the route. The first is CHATHAM, on the Thames; next LONDON, a place of some 10,000 inhabitants, with a clever and capable Yankee Mayor, Mr. HOLMES; and last but not least, HAMILTON; a busy and beautiful city of 20,000 people, at the head of Burlington Bay, on Lake Ontario, and altogether one of the most attractive, well-to-do and substantial looking towns I know of anywhere. We reached HAMILTON, the scene of the Rail Road festivities, at 8 o'clock Thursday evening, and soon made our way to the City Hotel, which we found crowded with guests, from different parts of Canada and the U. S. There was, however, room for a few more, and after securing quarters for the night we repaired to the Banquet Hall. This was a very large and elegant apartment, brilliantly lit with gas lustres; four tables extending through its whole length, crossed at the upper end by a fifth, on a raised platform, for the presiding officers and prominent guests. The repast was a sumptuous one; abundant, various, well-cooked and admirably served—in all these respects, indeed, the handsomest public entertainment I ever saw. Ample time was afforded to the Company to discuss the substantials of the feast, which received, as it deserved, full justice at the hands of the numerous and hungry guests. This done, the decks, or tables rather, were "cleared for action," in the way of speeches, sentiments and song.

The ball was opened by the presiding officer (the Mayor of Hamilton) giving, as the first regular toast,

"*The Queen.*"

To this the whole Company, four or five hundred in number, responded with three times three, all rising and standing while the Band played and a corps of Amateurs sang, the superb National Anthem of England, "God Save the Queen"—Yankees and Englishmen vieing with each other in hearty and protracted cheering. Next came "*The Chief Magistrate of the Neighboring Republic*," the band striking up "Hail Columbia," and all hands again rising and cheering with a will. To this sentiment, Judge WHIPPLE, Chief Justice of Michigan, in obedience to a general summons, responded in a brief and effective speech, which was received with hearty applause. "*Her Majesty's Representative*," was next toasted, and then "*The President and Directors of the Great Western Railway*." Mr. HARRIS, the President, acknowledging the latter compliment in fitting phrase.

The fifth toast was "Our Guests," which was the signal for renewed and enthusiastic cheering by our Canadian entertainers, and was responded to first by Mr. GEORGE W. MEEKER, of Chicago, in a humorous and effective speech, and then by Mr. J. HILTRAD CAMERON, a distinguished lawyer of Toronto, in behalf of the Canadian guests, in a strain of great eloquence. One thought which he expressed, that the day had gone by when Americans and Englishmen, speaking the same language, owning the same lineage, professing the same faith, and inheriting the same proud memories, could afford to quarrel; but that the time might come, are, and might be close at hand, when they should stand, side by side and shoulder to shoulder, battling for Civil and Religious Liberty—was received and responded to by the most vociferous and prolonged cheering.

Following this toast, came others, to "*Sir Allen Mac Nab*" (very warmly received) "*the Mayor and Corporation of Hamilton*," and "*the English and American Stockholders in the Great-Western Railway*;" the last one calling up Mr. Bridges, the Managing Director of the road, a quiet, unassuming, but accomplished gentleman, and just the man for the arduous and responsible position which he holds. He closed his few and well-judged remarks by toasting "*the Mayor and Corporation of Detroit*," to which the assembled company responded by three cheers, and Recorder LOTHROP, of Detroit, in a very eloquent and effective ten minutes speech. Next came a sentiment to "*the Press*," which was duly acknowledged by Mr. CLAPP of the Buffalo *Express*, in behalf of the fraternity, of whom a goodly number, from the East and the West, the States and Canada, were present. Judge WHIPPLE, after a short and complimentary introduction, proposed a sentiment to "*the State of Wisconsin and her representatives then present*," which was very kindly received by the Company and to which it fell to my lot, willy nilly, to respond. This was done, of course, in the briefest possible phrase (talking not being my vocation) and with the following sentiment, "*Our Canadian Neighbors—The nearest and dearest of our Foreign Relations*"—my Yankee brethren endorsing and echoing the sentiment very heartily. A toast to "*Iowa—the youngest and most Westerly State of the American Union*," called up Chief Justice WILLIAMS of that State, who made a capital talk, and was warmly cheered. Other Sentiments and speeches succeeded, relieved in the intervals by most eloquent music from Scott's Rochester City Band. By midnight, the Yankees present had grown excessively loyal and the Canadians almost republican, and they fraternized delightfully.—About 1 o'clock the festival—long to be remembered by all who had the good fortune to participate in it—was brought to a close; "Auld Lang Syne," sung by the whole Company, constituting the appropriate finale. It was throughout—in its inception, arrangement and management, the most successful and elegant affair of the kind I ever attended and was creditable alike to the good taste, the liberality and the hospitality of the Corporation and Citizens of HAMILTON. MEMORY—No. 8.

ERNEST TO ELLA.

Sad thoughts are stealing o'er my soul,
As steals the twilight o'er the lea;
My spirit bows before its old-time star,
'Rapt in dreams of thee.

Ella Lee.

I thought all tenderness was past,
I was not now what I had been,
That e'en the ashes on the shrine were cold,
That nought again, my soul could win
To mourn for thee,

Ella Lee.

As the shadows deepen, lengthen, and the night creeps on apace,
So a rayless darkness gathers, checks my spirit in its race,
Points it to the vanished dream-land lighted by a weary moon,
Swinging in the cloudy Heavens, at the midnight's solemn noon.
And my spirit goes from out me, and I see it kneeling low,
By a broken marble, gleaming in the moonbeam's chilly flow,
Gazing through the misty distance, thus the marble saith to me:
'Sacred to the perished love of Ernest Gray and Ella Lee.'
Then it roams along the pathway that our spirits winged together,
Traces from its bright commencement through Elysian airs and flowers;
Love's fair stream that sang and rippled through the blissful fleeting hours.
Then it pauses where the fragments, of its broken hopes do lie;
Where the shadows gathered thicker and the stream moaned restlessly;
Then it lives again the anguish, that, that dreary hour did know,
When the Past seemed as a burial, and the Future filled to show
Aught the spirit yearned to live for and it heard the "never, never,"
Wailing from the far To Be and its light seemed lost forever.
Spirit, yieldest thou to these fancies in the hey-day of thy youth,
When thy life is all before thee, and thy searching after Truth,
Must demand thy deathless powers, and if given, will be twined
Round thy brows a wreath of glory; in the annals of the mind
Shall be registered thy efforts, with the pure of every clime,
And thy name be sung forever by the great preserver Time.
Where all holy memories cluster in the Past's amulit array,
Sounds the voice of my Redeemer, saying, "Me ye have alway."
Now I will not cherish phantoms, worthy feebler souls than mine,
Those were long, long days of weakness, when my essence bowed to thine.
Yet these fond and vain delusions all have wept themselves away,
And my waken.d vision sees thee but a common kind of clay;
'Twas not well so many years should have found me loving one;
But the crushing spell is severed, and the hours of folly gone.

City Matters.

POLICE COURT—JAN. 24.

Two applications were made for warrants against individuals for selling liquor without license. The parties were referred to the City Attorney, who was not to be found.

A warrant was issued against Charles Targeant (alias) for an alleged assault and battery upon H. M. Hubbard, on the 23d of January.

SUDDEN DEATH.—A young man named Jacob Eisman, a native of Bavaria, in Germany, died suddenly on Monday night. The deceased had been about two years in the city, and was in the employ of H. J. Nazro & Co., as porter. On Monday evening he ran to the fire on the Canal, and after getting home remarked to his wife that he had run too fast. He went to bed about ½ past 9, and was found dead in his bed at a little after eleven.

KILLED BY THE FALLING OF A BANK OF EARTH.—A young man named John Mountain, was accidentally killed yesterday morning near the depot, by the falling of a large bank of earth. The deceased was a native of Ireland, had resided in the city about four months and had been married only two months. Mountain was in the employ of Hugh Drum, removing dirt, when the bank caved down and completely crushed him.

THE WEATHER—FINE SLEIGHING.—Yesterday was a bright and beautiful winter day; the temperature moderate during the day, but growing colder towards nightfall. The sleighing, in and about the city, and all over the State, indeed, is superb, and with the high prices now paid for produce, must make business very lively.

FIRST-RATE HAMS.—We would call the attention of our readers to the advertisement in to-day's paper of *Sugar Cured Hams*, prepared by Wm. B. Alvord, at the Red warehouse.—Having tried one of those hams, we can recommend them as first rate, and as it is generally so difficult to procure a good article, we advise those in want of hams to lay in a supply from Mr. Alvord before they are all gone.—*Wisconsin.*

We can endorse the *Wisconsin's* "favorable allusion" to these Hams of Mr. ALVORD's curing. They are "all its fancy painted them." Such Hams need "no Tongues to tell" how good they are.

The "Minie" Rifle.

Most of our readers we presume have heard of the "Minie" Rifle, though few of them probably know much about its construction and advantages. From a correspondent of the New York Tribune, published in that paper a few days since, the Adrian Expositor has compiled some facts which will be interesting to those of our readers whose attention has been directed to such matters. There is nothing in the *appearance* of the rifle that differs from the common one. The fact is, there is no propriety in calling this invention the Minie *Rifle*. Properly speaking, it is the Minie *Ball*. The ball is cast oblong, with a conical point, similar to our "slug" balls, with the base or large end hollow for two-thirds the length of the ball. In the opening of the ball there is inserted a concave piece of iron, cut by a power press. On the explosion of the powder, this piece of iron is forced into the lead of the ball, which at the time of loading is dropped loosely into the barrel of the rifle, and expands the ball in such a manner as to entirely stop all "windage," a desideratum which cannot be reached by the old method of forcing down a tight ball; and this is the whole secret of the "Minie Rifle."

And now let us look a moment at the effective use of a rifle used with these balls The writer states that at a trial in France, Major Minie made three shots at a black target one foot in diameter, and touched the edge of the black, each shot, at a distance of *three quarters of a mile!* On another occasion, Major Minie hit a "bull's" or mark, eighteen *feet* high, and one hundred feet long, seven times out of ten, at a distance of *one mile!* the ball striking with sufficient force to penetrate a French cuirass, and kill the wearer.

It has been fairly estimated that 5,000 soldiers, armed with these rifles, can do as much execution as 50,000 armed with the old musket. A few years since, a Major Malon, engaged in Algeria, used the new ball with complete success. A body of Arab cavalry approached within a hundred yards, supposing they were comparatively safe, when a volley of these balls were poured in upon them, producing great slaughter. They immediately fled, but rallied again at a distance of eight hundred yards, when another volley carried destruction into their ranks; when the fellows, perfectly panic struck at an effective shot at that distance, fled in dismay.

This improved ball has not as yet been introduced into our army.—*Del. Tribune.*

The Way to Amazonia.

To the Editor of the N. Y. Tribune.

SIR: Will you kindly favor a subscriber by stating in you paper, by whom the much-talked of Amazon expedition is projected, when it intends to sail, with what force, and for what purpose? You will thereby greatly favor a friend and admirer of The Tribune. K. E. C.

Albany, Jan. 11, 1854.

We must refer our correspondent to Lieut. Herndon for particulars concerning the Amazon country, and to Lieut. Maury for the best method of getting there. It is likely that the first vessel put up for Tabatinga will be advertised in the Tribune. If our correspondent desires to go to those regions, let him at once set about learning to sleep in a bag, and diet on baked monkey.—When he gets so he can live without air, and feed like an orang-outang, let him take an alligator trap and start.—*Tribune.*

ABOUT A DRESS.—If the reports by the Europa be well founded, four duels have been fought about one lady's dress—a robe of blue velvet, low in the neck, with flounces of lace made of gold thread, and on her head a *torsade a glandi d'or*. One minister's knee has been damaged, and another minister is reported to have lost his life. This last report needs confirmation.—*Bait. Sun.*

Cincinnati Market

CINCINNATI, Jan. 19.

Provisions—There was only a moderate demand to-day and the market, if anything, favored buyers, though in prices there was no change. The sales comprised 250 bbls clear pork at $13; 2,000 pcs shoulders and sides in bulk, at 4¾ and 5¼c packed; and 1,000 kegs No 1 Lard, at 8c.

Hogs—The only sale heard of was 400 head at 4,75.—Packers are not disposed to pay over this figure, but 4,87½ was in some instances realized.

Louisville Market,

Louisville Jan. 19, P. M.

There is a firm feeling manifested by dealers in Provisions; the sales to day comprise 500 brls Lard at Sa8 ½; 1000 brls Mess Pork at $12; and 2000 Hams, in bulk, at 6 ¾ shoulders in bulk, cured, are held at 4 ¾, and Sides at 5 ¾—the market closing firm.

DIED.

In Algoma, on the 22d ultimo, Miss MARIA C., eldest daughter of H. O. Jewell, Esq., aged 19 years.

In the death of this young lady, the family of which she was a member, have been called to drink deeply of the cup of sorrow, in parting with one who possessed traits of character which made her the object of the warmest affection, and procured for her the respect of all who knew her. In her disposition she was lovely; in her suffering, patient; and in her death, blessed. Though called thus early to bid adieu to a large circle of friends and relatives, she went down to the dark valley, not only without murmuring, but cheerfully; calmly conversing about her departure. May the same Savior who sustained her in her sickness and death, and with whom we trust she now dwells in glory also sustain her mourning friends in their bereavement, and when life's journey with them is over, re-unite them in that world where there is no parting or sorrow.—*Appleton Crescent.*

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, Jan. 19, '54.

In Senate, a bill has been introduced by Mr. West, of Greene Co., to abolish the Emigrant Agency. There seems to be quite a feeling in the Senate in favor of such action, but in the House, I think it is different. Something depends upon the amount of buttonholding done before the question of the continuance of the Agency comes up.

Senator Wakely presented a couple more bills directed at the unfortunate Statutes. Two bills passed, one of them the amendment to the charter of the Lake Shore R. R. Co. It is satisfactory to the Company, and will doubtless pass the House promptly. The bill is needed to enable them to obtain the right of way in some cases. Their contracts, I understand, are all given out, and the work going on well, but may be delayed unless this bill passes. A similar bill was introduced in the House, in ords: that it might be pushed, if there was delay in the Senate, but it will sleep probably, if the other passes.

The Senate voted this morning upon the reports in the case of the Rock Co., contested seat, and by adopting the majority report, confirmed the sitting member, Mr. Harvey in his place, by the following vote:

Ayes—Allen, Blair, Bowen, Cary, Dunn, Grant, Howell, Loy, Mantz, Miller, Smith, Sterling, West, and Whittlesey—15.

Noes—Bashford, Eldridge, Vittum, and Wakely—4.

I send you for publication a copy of Senator Reynert's bill for a Prohibitory Liquor Law.

The House had quite an interesting session for so early a day. The general features of the day's work, you will have gathered from the telegraph report. I proceed to some details which were not sent by that medium. A large number of claims were presented and referred to the Committee, at the head of which stands Mr. Hale, of Kenosha, and the probability is that few unfounded claims will pass his vigilant eyes. I think, too, that he is fearless enough to report against an unjust claim.

Mr. Merrison, of Jefferson, introduced a resolution, intended to stop the practice of sending newspapers here which are not ordered by members. It may pass, but nothing will come of it. Papers *will* come, and *do* come, directed in blank, to Senate and Assembly, a full supply all around, and the bills will come at the end, and be paid. This is a very liberal legislature.

Another resolution, calling for a report as to the *outstanding loans from the School Fund*, with names of parties, and statement as to payment of interest &c., has been introduced, and lies over.—The answer will be worth seeing, and will solve some doubts in the minds of the people, if a correct report is made. Let us have light!

A bill chartering the "Sauk City Bridge Co." has made its appearance. It is probably Monsieur Toutou come again. I have a very distinct remembrance of a bill, under another name, I think, but for the same purpose, being killed dead as many as four times in the session of 1852. The House adjourned under the impression that it would stay dead; but just after our stage load, a part of which was Speaker Shafter, had travelled a few miles out, some one informed that ex-officio that he had been *tricked into signing the bill* the night previous! He was mad as a March hare at the trick, and stated that he should block the game after all. How it was done, I don't know, but the charter never came upon the Statute book. Now we have it again; but it comes with better grace, Mr. Remington, the Sauk Co. member, moving its reference to the Judiciary Committee to report whether it would infringe upon the chartered privileges of the old Bridge Company. Mr. McIndoe, however, moved that the bill lie upon the table for 10 days, to give time for remonstrances to come in; and the House so ordered. I understand that Mr. McI's objections are not in behalf of the old bridge company, but of the lumbermen, whose facilities for rafting would be interfered with.

The resolution concerning the printing of the Reports was put through in double quick time this morning. In addition to 2000 copies, in pamphlet form, of the reports of the Secretary of State, Treasurer and School Superintendent, State Prison Commissioner, Comptroller, State Geologist, &c. &c. in English, by the State Printer, it orders 500 copies of each, from each of the offices of the *Banner* and *Volksfreund*, (German), and *Emigranten*, (Norwegian), at no fixed price. It is a good thing to be a printer in a foreign language in Wisconsin; especially it is a great thing to be a printer of the favored newspapers. There are a dozen other papers in German, whose proprietors are no better off than are the English papers. The whole system, or custom, of ordering these reports of any one but the State Printer, is wrong, and would be so understood, were there any respect paid to the law. The vote for this order on the press was as follows:

AYES—Baker, Barnes, Beecroft, Bell, Bernhard, Crawford, *Desnoyers*, *Earnest*, *Gary*, Gibson, Hadley, Haggerty, Hale, Hull, Harrington, Hart, HEAD, Jeffrey, *Joiner*,, Ketchum, Knowlton, *Kyle*, LAVIS, Mattes, *Mat's*, *McCracken*, *McIndoe*, *Mitchell*, Morrison, Noggle, Norton, O'Niel, *Orton*, Parker, Parkison, *Reed*, Reinhardt, Remington, Rich, *Rood*, Rosenthal, Schantz, *Scott*, John Smith, Talmadge, J. L. Thomas, M. J. Thomas, *Tway*, Tobin, Torbert, Webster, West, Wheedon, Wright, Zimmerman, Horn—56.

NOES—*Allen*, *Atwater*, Barney, BARTLETT, Beeher, *Colley*, Davis, *Donaldson*, *Estabrook*, HOOKER, *Lake*, McCormick, *Nichols*, SEAFARD, SPALDING, JESSE SMITH, *Topliff*, Wheeler, *Whiting*, *Worthington*, Young,—23.

Mr. Thomas, of Fond Lac, in urging the necessity of the German printing, said that there was a population in Wisconsin *two-fifths* German. If I recollect right, in 1850, the German population was about one-fifth of the whole. I doubt whether it has increased in any greater proportion.

Mr. Earnest, from the committee on mining, reported verbally the opinion of the committee in regard to Prof. Daniel's Report, that it is a very valuable and interesting one, and offered a resolution for its speedy publication, to which the House agreed.

Mr. Worthington, from the committee on the brief as the Governor's allusion to that affair—concluding with a resolution complimentary to Capt. Ingraham, which passed. So that matter is despatched, and no more time will be wasted with it.

In committee of the whole, two bills, of some interest, were considered, and disposed of, so far as the committee could do it. One was to pay E. G. Ryan $3,000. Mr. Hale moved to add about $133, being interest and costs of the Supreme Court proceedings, and this was declared carried by a very close vote. Coming into the house, after a brief debate, in which Knowlton urged that the decision of the court, which the law made the arbiter, ought to be obeyed, and Mr. Lake expressed an unwillingness to vote for so outrageous a sum, if it could be avoided, the Speaker declared the bill ordered engrossed, though I had doubts.

The other bill was the one ousting the State Agricultural Society from its room in the basement of the Capitol. An amendment was presented and passed, giving the Society $200 for fitting up anot'er room elsewhere, and so the bill was ordered to a third reading. There was an immense deal of disclaiming of any desire to strike at the "Agricultural interests." What a world it is!

As I thought yesterday, the appropriation bill for Mr. Miller passed to-day. *Mem.* An appropriation bill, defeated one day by a small disparity of votes, is sure to pass the next day by a good strong vote.

Talking about the School Fund, Illegal Fees, &c, certain things have transpired here lately which are likely to create a shaking among the dry bones. As the circumstances are told to me, a Mr. Blackwell, of Cincinnati, has been making entry of a large amount of school lands in the northwestern counties—40 or 50000 acres. The Board of Commissioners insisted upon giving him a great number of certificates, charging the fees for each. There was delay in the making out of these papers, and Mr. B. went away leaving with the Treasurer the payment required by law, and a large amount—some say $1700, for the fees. On returning a short time ago, the papers were not yet ready, and Mr. B. hired a clerk himself, to expedite the business. When they were all made out, he turned to the Treasurer, and made demand for the money which he alleged that they had received unlawfully. The Treasurer consulted with the Attorney General, and refused to pay it over, and suit has been brought for the amount. It is said, too, that others are about to commence like suits. So you see that the thing has come to a head at last. The above statement is beyond a doubt correct as to the material facts.

If the fees taken by the Board *are* legal, I hope that they have taken enough to eke out the mean pittance which the law allows them to a respectable salary. There is no reason why the State of Wisconsin should seek to obtain the services of a Treasurer, giving an enormous bond, and having charge of great amounts of money, for a salary of $800; about as much as a porter at a second-class hotel could earn. The other officers are as meanly paid. The Governor *must* lose money at his salary of $1200—and so with the others, except the Attorney General, who, judging from the past, has scarcely earned his pay.

If the fees are illegal, and it seems clear enough that such is the case, there will be music all over the State, now that the ball is opened.

W. H. W.

MADISON, Jany. 21, '54.

The resolution relative to the documents in foreign languages did not come back to-day from the Judiciary Committee, but I understand that the report will be to the effect that it does not violate the Constitution or contract with the State printer, inasmuch as the law only called for bids for printing "in English." It is a capital hit, for our cotemporaries of the German, Norwegian, and Dutch tongues.

In Senate this morning, the *Nieuwsbode* was directed to furnish 500 copies of the Message in Dutch, and the State printer 200 in French.

In the same house Mr. Hunter presented the memorial of the Milwaukee and Rock River Canal Co.—for "relief," I suppose, having been unable to get at the document. It is referred to the committee on the Judiciary, If the memorial *is* for relief, I do not see why the Company does not take advantage of the law passed last winter in behalf of claimants against the State.

Among the bills passed in Senate was one repealing chap. 79 of the laws of 1853, which is the law regulating the relations of bills, notes &c., to certain holidays. This being a changing world it is quite probable that the bill will pass the Assembly, and thus the old statutes and common law resume their operation, until the next Legislature can have a turn at them. The bill authorizing certain owners of property in the north part of Milwaukee, in the 2d ward, to lay out a park, also passed.

In the House, the papers in another contested seat case were presented and referred to the committee on Elections. Mr. J. H. Wells, of Berlin, Marquette Co., contests the seat of Mr. Nichols, on the ground that the board of inspectors of election, in one town, did not send their oath of office to the county board of canvassers with the poll-list, but left it with the town clerk. I understand that the Committee, as is frequently said of juries in very clear cases, "returned a verdict for the defendant without leaving their seats." Next, we shall have a bill for mileage and *per diem*.

Col. Shaw's memorial has been referred to a select committee, consisting of Messrs. Hull, Knowlton, Scott, McIndoe, and Atwater. Believing that the old gentlemen has, beyond a doubt, been grievously injured by the acts of the state officers, it does seem to me nothing more than fair that the state should make him some remuneration.

Mr. Webster, of our city, introduced this morning a joint resolution ordering 500 copies of the "Industrial Resources of Wisconsin, by John Gregory, (here follows the Alphabet,) and author of various scientific works." He moved its reference to a select committee, and it was so referred.

The use of the Assembly Hall is tendered to Prof. Daniels, the State Geologist, for Tuesday evening next, for a lecture, and, for one, I anticipate a very interesting lecture, and think that the Legislature will be satisfied of the waste of breath of those who decry the energetic, hardworking professor. I very well remember the hostility which the bill organizing the bureau, if I may so speak, met with from members in the West; and have been gratified to see that it has already achieved its own vindication.

Mr. Webster moved this morning the reconsideration of the vote which passed the appropriation bill for E. G. Ryan. There was a motion to lay upon the table immediately, and several members rising to debate it, the whole matter was thrown over to Monday, under the vote prohibiting debate on Fridays and Saturdays. The bill has gone to the Senate, where a motion to put it on its passage, under suspension of the rules was lost.

Several bills of importance came up in the file in committee of the whole, but were laid aside under the rule. After getting through the file, the committee commenced again upon those which elicited debate, and the bill repealing the small bill law was taken up. It is the substitute reported by the Judiciary Commitee, and is a remodeling of the bill prohibiting unauthorized banking, leaving out all which refers to the circulation of bills of a certain denomination. An amendment, throwing the burden of proof, in cases of complaint, upon the defendant, was rejected, and at this point the committee rose without concluding its labors on the bill.

There was nothing else worthy of particular note, done in either house.

In adding the brief postscript this morning to my letter of yesterday, stating that the mercury stood at 18 degrees below O, I thought I was telling a pretty large story, but what will you people in Milwaukee—who, as we learn by travellers, are covered up under three or four feet of snow—say, when I assure you that by two or three reliable reports on the Governor's allusion to that affair—concluding with a resolution complimentary to Capt. Ingraham, which passed. So that matter is despatched, and no more time will be wasted with it.

In committee of the whole, two bills, of some interest, were considered, and disposed of, so far as the committee could do it. One was to pay E. G. Ryan $3,000. Mr. Hale moved to add about $133, being interest and costs of the Supreme Court proceedings, and this was declared carried by a very close vote. Coming into the house, after a brief debate, in which Knowlton urged that the decision of the court, which the law made the arbiter, ought to be obeyed, and Mr. Lake expressed an unwillingness to vote for so outrageous a sum, if it could be avoided, the Speaker declared the bill ordered engrossed, though I had doubts.

The other bill was the one ousting the State Agricultural Society from its room in the basement of the Capitol. An amendment was presented and passed, giving the Society $200 for fitting up anot'er room elsewhere, and so the bill was ordered to a third reading. There was an immense deal of disclaiming of any desire to strike at the "Agricultural interests." What a world it is!

As I thought yesterday, the appropriation bill for Mr. Miller passed to-day. *Mem.* An appropriation bill, defeated one day by a small disparity of votes, is sure to pass the next day by a good strong vote.

Talking about the School Fund, Illegal Fees, &c, certain things have transpired here lately which are likely to create a shaking among the dry bones. As the circumstances are told to me, a Mr. Blackwell, of Cincinnati, has been making entry of a large amount of school lands in the northwestern counties—40 or 50000 acres. The Board of Commissioners insisted upon giving him a great number of certificates, charging the fees for each. There was delay in the making out of these papers, and Mr. B. went away leaving with the Treasurer the payment required by law, and a large amount—some say $1700, for the fees. On returning a short time ago, the papers were not yet ready, and Mr. B. hired a clerk himself, to expedite the business. When they were all made out, he turned to the Treasurer, and made demand for the money which he alleged that they had received unlawfully. The Treasurer consulted with the Attorney General, and refused to pay it over, and suit has been brought for the amount. It is said, too, that others are about to commence like suits. So you see that the thing has come to a head at last. The above statement is beyond a doubt correct as to the material facts.

If the fees taken by the Board *are* legal, I hope that they have taken enough to eke out the mean pittance which the law allows them to a respectable salary. There is no reason why the State of Wisconsin should seek to obtain the services of a Treasurer, giving an enormous bond, and having charge of great amounts of money, for a salary of $800; about as much as a porter at a second-class hotel could earn. The other officers are as meanly paid. The Governor *must* lose money at his salary of $1200—and so with the others, except the Attorney General, who, judging from the past, has scarcely earned his pay.

If the fees are illegal, and it seems clear enough that such is the case, there will be music all over the State, now that the ball is opened.

MADISON, Jany. 21, '54.

The resolution relative to the documents in foreign languages did not come back to-day from the Judiciary Committee, but I understand that the report will be to the effect that it does not violate the Constitution or contract with the State printer, inasmuch as the law only called for bids for printing "in English." It is a capital hit, for our cotemporaries of the German, Norwegian, and Dutch tongues.

In Senate this morning, the *Nieuwsbode* was directed to furnish 500 copies of the Message in Dutch, and the State printer 200 in French.

In the same house Mr. Hunter presented the memorial of the Milwaukee and Rock River Canal Co.—for "relief," I suppose, having been unable to get at the document. It is referred to the committee on the Judiciary, If the memorial *is* for relief, I do not see why the Company does not take advantage of the law passed last winter in behalf of claimants against the State.

Among the bills passed in Senate was one repealing chap. 79 of the laws of 1853, which is the law regulating the relations of bills, notes &c., to certain holidays. This being a changing world it is quite probable that the bill will pass the Assembly, and thus the old statutes and common law resume their operation, until the next Legislature can have a turn at them. The bill authorizing certain owners of property in the north part of Milwaukee, in the 2d ward, to lay out a park, also passed.

In the House, the papers in another contested seat case were presented and referred to the committee on Elections. Mr. J. H. Wells, of Berlin, Marquette Co., contests the seat of Mr. Nichols, on the ground that the board of inspectors of election, in one town, did not send their oath of office to the county board of canvassers with the poll-list, but left it with the town clerk. I understand that the Committee, as is frequently said of juries in very clear cases, "returned a verdict for the defendant without leaving their seats." Next, we shall have a bill for mileage and *per diem*.

Col. Shaw's memorial has been referred to a select committee, consisting of Messrs. Hull, Knowlton, Scott, McIndoe, and Atwater. Believing that the old gentlemen has, beyond a doubt, been grievously injured by the acts of the state officers, it does seem to me nothing more than fair that the state should make him some remuneration.

Mr. Webster, of our city, introduced this morning a joint resolution ordering 500 copies of the "Industrial Resources of Wisconsin, by John Gregory, (here follows the Alphabet,) and author of various scientific works." He moved its reference to a select committee, and it was so referred.

The use of the Assembly Hall is tendered to Prof. Daniels, the State Geologist, for Tuesday evening next, for a lecture, and, for one, I anticipate a very interesting lecture, and think that the Legislature will be satisfied of the waste of breath of those who decry the energetic, hardworking professor. I very well remember the hostility which the bill organizing the bureau, if I may so speak, met with from members in the West; and have been gratified to see that it has already achieved its own vindication.

Mr. Webster moved this morning the reconsideration of the vote which passed the appropriation bill for E. G. Ryan. There was a motion to lay upon the table immediately, and several members rising to debate it, the whole matter was thrown over to Monday, under the vote prohibiting debate on Fridays and Saturdays. The bill has gone to the Senate, where a motion to put it on its passage, under suspension of the rules was lost.

Several bills of importance came up in the file in committee of the whole, but were laid aside under the rule. After getting through the file, the committee commenced again upon those which elicited debate, and the bill repealing the small bill law was taken up. It is the substitute reported by the Judiciary Commitee, and is a remodeling of the bill prohibiting unauthorized banking, leaving out all which refers to the circulation of bills of a certain denomination. An amendment, throwing the burden of proof, in cases of complaint, upon the defendant, was rejected, and at this point the committee rose without concluding its labors on the bill.

There was nothing else worthy of particular note, done in either house.

In adding the brief postscript this morning to my letter of yesterday, stating that the mercury stood at 18 degrees below O, I thought I was telling a pretty large story, but what will you people in Milwaukee—who, as we learn by travellers, are covered up under three or four feet of snow—say, when I assure you that by two or three reliable reports on

30 degrees below zero, at 7 o'clock A. M. this morning. That may be called good healthy weather.

Monday, 23d, 9 *A M.* We are all curious this morning to know what can have become of Milwaukee and the other eastern portions of the state. We had no mail on Saturday, and only a despatch on Saturday evening, stating that the morning train that day from Milwaukee could not get through the snow, and had to go back to bring out laborers to dig out the track. So we have waited patiently 36 hours more, but yet no mail has come—no passengers have come—no any thing. With those of us who hail from Milwaukee, the circumstances, odd in themselves, excite various odd ideas. We suppose the white, fleecy covering to be in the streets some 4 or 5 feet thick, and in the gutter more of it, so many of them having been already filled and frozen. We suppose Marshal O'Tim, returned safely from lobbying for the office of Emigrant agent, as active as usual in notifying people to clean the sidewalks. We suppose all sorts of remonstrances, for the tradesmen won't care to pile up a mountain wall between them and the road-way. We suppose all sorts of vehicles, from fancy swan cutters to crockery crates, to be dashing through the streets, and the dashing hunters, with fox-tail caps and wolfskin robes, to be "sleighing the deers" at an unmerciful rate—for the horses—up East and then down West Water street, so as to cross all the bridges, taking toll at each. We suppose—but that last idea, together with a remark which has just fallen from somebody, who stands between me and the stove, warming his skirts, takes away my breath. At 7 o'clock this morning, a thermometer, thrust out of a window of the Assembly chamber, immediately marked 24 degrees below O! call it 30 degress at 5 o'clock. Just now, it stands at 20 degrees. That will do.

The snow is about a foot in depth hereabouts, and the sleighing fine, Grain coming in rapidly, and as high as 90 cents has been paid for winter wheat. Push along the railroad. The snow will protect and nourish the wheat in the ground, and with a favorable season for ripening and harvest, Wisconsin farmers will gather a magnificent crop; and the prospect is fair for good prices in the fall, when

"The handed sheaves stand orderly
As clear the purple Autumn sky
Like armies of Prosperity."

The Three Cold Days.

The extreme cold weather of the last few days is rather a new experience in Wisconsin. We doubt if colder weather was ever known here.—It seems, too, to have extended, far and near. As we came thro' Michigan, Saturday, we were informed that the mercury ranged that morning, at different points on the line, from 14 to 20 degrees *below* zero, and Monday morning must have been still colder. The Rail Road trains and the Mails have been badly mixed up and kept back by the severity of the weather. We have already spoken of the detentions on the M. and M. Rail Road, which were remedied as speedily as possible and by the most energetic efforts of the employees of the Company, headed by the indefatigable Superintendent, Mr. BRODHEAD. The Rail Roads in Illinois suffered in a still greater degree; trains being stopped on the track from 24 to 36 hours by the freezing up of the Locomotives. On both the Southern and the Central Michigan Rail Roads similar detentions, tho' of shorter duration, occurred; but in regard to the latter road the unavoidable delay was partly compensated by the provident care of the Conductor, Mr. RICE, who kept his passengers well-fed and well warmed and consequently in good humor.

Our exchange and correspondence have been considerably deranged by the mail failures and detentions; but we give a pretty large instalment to-day and hope to make up arrearages by to-morrow. Our own letters from Hamilton and Chicago kept us company home, so that we shall figure, for a day or two, in the double capacity of editor and correspondent. We have no doubt that our readers, equally with ourselves, were entirely content with the excellent substitute who occupied the editorial arm-chair during our absence.

☞ See our Madison Letters for some interesting items of news from the Capital.

THE NEWS BY THE NIAGARA. We give this morning some further details by the NIAGARA.—As reported by Telegraph, it is a little blind, especially the paragraph relating to Napoleon and the Czar. The danger of general European war seems imminent. The New York market of yesterday exhibits an advance of nearly A DOLLAR A BARREL on Flour, consequent upon this intelligence.

MURDER AT ST. PAUL.—The Hudson *Journal* of the 12th instant states that on Monday night the 26th ult., two citizens of St. Paul, named John Clark and Philip Hull, were assaulted and struck down, by some unknown fiends in the shape of men, who were armed with slung-shot. The skulls of both were fractured. Clark died on the following Friday, and Hull on Wednesday, the 4th inst. Sheriff Fridley has offered a reward of $500 for the arrest of the murderers, but as yet no trace of them has been found.

THE DETROIT DAILY INQUIRER.—Such is the name of the new paper started at Detroit by REUES HOSMER and THEODORE WILLIAMS. The INQUIRER wins friends and readers at once by its good looks and will retain all that it thus wins; for it cannot fail in our friend HOSMER's hands, to be a well edited, vigorous, manly and independent journal. We wish it and its conductors all possible success.

STEVENS POINT.—We learn from the *Pinery* that Stevens Point now contains 91 dwelling-houses, 10 or more stores, 20 work shops, 5 taverns, 98 families, besides saw-mills, school houses and churches, and a population of nearly seven hundred, the healthiest people in the world.

The same paper contradicts the report that the Stevens Point Land office is closed.

GREAT WESTERN RAIL ROAD.—This grand thoroughfare thro' Canada is now in the full tide of successful operation. Trains leave each end of the route (Detroit and Niagara Falls) daily, going thro' in 10 hours. As the Spring Travel opens additional trains will be placed on the route and the time shortened to 8 hours. We can commend the road to our Wisconsin readers as in all respects an admirable one.

GODEY'S LADY'S BOOK.—The February number of this popular periodical is rich in embellishments, and full of pleasant reading matter. The publisher spares neither pains nor expense to keep up the character of his Magazine and to meet the strong competition of Harper and Putnam. The "Lady's Book" is sent to subscribers at $3,00 per annum.

"ANOTHER IMPEACHMENT RUMORED."—Under this heading the *News* of yesterday morning announces that W. K. WILSON, of this city, is busy at Madison endeavoring to get up another Impeachment of Judge HUBBELL. We think it will be some time before the People of our State can be persuaded to indulge a second time in this expensive luxury.

"A FALSE ALARM."—The Appleton *Crescent* notices and indignantly denies the rumor, in circulation at Madison, that the Fox River Improvement Company has failed and ceased to redeem its paper. The *Crescent* is authorized to say that there is not a shadow of truth in the story.

M. AND M. RAIL ROAD.—A Passenger train came in from the west at 4 P. M. yesterday, and another, as well as two Freight trains, expected last night. By to-day, the trains will be running regularly. There is an immense amount of produce at the several stations, awaiting transportation to Market.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

THE RAILROAD CELEBRATION AT HAMILTON.

HAMILTON, Canada, Jan. 20, 1854.

The Excursion Train for Hamilton, which left Detroit at half-past 10 o'clock Thursday morning, consisted of five Passenger cars, containing as merry a company as ever started on a similar trip. It was my first Railroad experience in Canada and it proved in all respects agreeable. We found the cars roomy, elegant and well-ventilated; the conductors and other employees of the Company civil and efficient, and the road itself one of the very best on this continent. The distance from Windsor (opposite Detroit) to the Niagara river is 228 miles. The Detroit River is crossed by a steam ferry boat and the Niagara by a Suspension bridge. The road is built in the most substantial manner; the curves are few and gentle, the grades easy and the guage 5 feet, 6 inches. From Windsor to London (110 miles) the route traverses a level, well-timbered and arable tract, which for all purposes of grain-growing, compares advantageously with the Prairies and Oak-openings of the West. Between London and Hamilton (180 miles from Detroit) the country is more broken, but still beautiful. The expense of constructing this portion of the road was much heavier than on the Western section, and the twenty miles west of Hamilton must have cost fifty, or sixty thousand dollars a mile. The rail is a heavy one and the lengths are so joined together as to make it substantially continuous. All who traversed the road agreed in pronouncing it the smoothest they had yet found; and as its general direction varies but little from an "air line," and the curves are of large radius, it can be run safely at a very high rate of speed. We made the run, from Detroit to Hamilton, including all stops and detentions, in less than 9 hours, and it is intended to make the regular trip, between the Detroit and Niagara rivers, in from 8 to 8 hours. It cannot fail to become—and that speedily—a favorite route for travel and traffic between the interior and the sea-board.

There are several important and thriving towns and cities along the route. The first is CHATHAM, on the Thames; next LONDON, a place of some 10,000 inhabitants, with a clever and capable Yankee Mayor, Mr. HOLMES; and last but not least, HAMILTON; a busy and beautiful city of 20,000 people, at the head of Burlington Bay, on Lake Ontario, and altogether one of the most attractive, well-to-do and substantial looking towns I know of anywhere. We reached HAMILTON, the scene of the Rail Road festivities, at 8 o'clock Thursday evening, and soon made our way to the City Hotel, which we found crowded with guests, from different parts of Canada and the U. S. There was, however, room for a few more, and after securing quarters for the night we repaired to the Banquet Hall. This was a very large and elegant apartment, brilliantly lit with gas lustres; four tables extending through its whole length, crossed at the upper end by a fifth, on a raised platform, for the presiding officers and prominent guests. The repast was a sumptuous one; abundant, various, well-cooked and admirably served—in all these respects, indeed, the handsomest public entertainment I ever saw. Ample time was afforded to the Company to discuss the substantials of the feast, which received, as it deserved, full justice at the hands of the numerous and hungry guests. This done, the decks, or tables rather, were "cleared for action," in the way of speeches, sentiments and song.

The ball was opened by the presiding officer (the Mayor of Hamilton) giving, as the first regular toast,

"*The Queen.*"

To this the whole Company, four or five hundred in number, responded with three times three, all rising and standing while the Band played and a corps of Amateurs sang, the superb National Anthem of England, "God Save the Queen"—Yankees and Englishmen vieing with each other in hearty and protracted cheering. Next came "*The Chief Magistrate of the Neighboring Republic*," the band striking up "Hail Columbia," and all hands again rising and cheering with a will. To this sentiment, Judge WHIPPLE, Chief Justice of Michigan, in obedience to a general summons, responded in a brief and effective speech, which was received with hearty applause. "*Her Majesty's Representative*," was next toasted, and then "*The President and Directors of the Great Western Railway*," Mr. HARRIS, the President, acknowledging the latter compliment in fitting phrase.

The fifth toast was "Our Guests," which was the signal for renewed and enthusiastic cheering by our Canadian entertainers, and was responded to first by Mr. GEORGE W. MEEKAN, of Chicago, in a humorous and effective speech, and then by Mr. J. HILTARD CAMERON, a distinguished lawyer of Toronto, in behalf of the Canadian guests, in a strain of great eloquence. One thought which he expressed, that the day had gone by when Americans and Englishmen, speaking the same language, owning the same lineage, professing the same faith, and inheriting the same proud memories, could afford to quarrel; but that the time might come, aye, and might be close at hand, when they should stand, side by side and shoulder to shoulder, battling for Civil and Religious Liberty—was received and responded to by the most vociferous and prolonged cheering.

Following this toast, came others, to "*Sir Allen Mac Nab*" (very warmly received) "*the Mayor and Corporation of Hamilton*," and "*the English and American Stockholders in the Great-Western Railway*;" the last one calling up Mr. Bridges, the Managing Director of the road, a quiet, unassuming, but accomplished gentleman, and just the man for the arduous and responsible position which he holds. He closed his few and well-judged remarks by toasting "*the Mayor and Corporation of Detroit*," to which the assembled company responded by three cheers, and Recorder LOCHBOR, of Detroit, in a very eloquent and effective ten minutes speech. Next came a sentiment to "*the Press*," which was duly acknowledged by Mr. CLAPP of the Buffalo *Express*, in behalf of the fraternity, of whom a goodly number, from the East and the West, the States and Canada, were present. Judge WHIPPLE, after a short and complimentary introduction, proposed a sentiment to "*the State of Wisconsin and her representatives then present*," which was very kindly received by the Company and to which it fell to my lot, willy nilly, to respond. This was done, of course, in the briefest possible phrase (talking not being my vocation) and with the following sentiment, "*Our Canadian Neighbors—The nearest and dearest of our Foreign Relations*"—my Yankee brethren endorsing and echoing the sentiment very heartily. A toast to "*Iowa—the youngest and most Westerly State of the American Union*," called up Chief Justice WILLIAMS of that State, who made a capital talk, and was warmly cheered. Other Sentiments and speeches succeeded, relieved in the intervals by most eloquent music from Scott's Rochester City Band. By midnight, the Yankees present had grown excessively loyal and the Canadians almost republican, and they fraternized delightfully.—About 1 o'clock the festival—long to be remembered by all who had the good fortune to participate in it—was brought to a close; "Auld Lang Syne," sung by the whole Company, constituting the appropriate finale. It was throughout—in its inception, arrangement and management, the most successful and elegant affair of the kind I ever attended and was creditable alike to the good taste, the liberality and the hospitality of the Corporation and Citizens of HAMILTON. R. K.

LECTURES.—We learn that W. E. Robinson, formerly a correspondent ("Richelieu") of the *N. Y. Tribune*, is coming to Chicago, to Lecture this week, and is expected to extend his visit to Milwaukie. He is a clever and vigorous writer and speaker.

ERNEST TO ELLA.

Sad thoughts are stealing o'er my soul,
As steals the twilight o'er the lea;
My spirit bows before its old-time star,
'Rapt in dreams of thee.

Ella Lee.

I thought all tenderness was past,
I was not now what I had been,
That o'er the ashes on the shrine were cold,
That nought again, my soul could win
To mourn for thee,

Ella Lee.

As the shadows deepen, lengthen, and the night creeps on apace,
So a rayless darkness gathers, checks my spirit in its race,
Points it to the vanished dream-land lighted by a weary moon,
Swinging in the cloudy Heavens, at the midnight's solemn noon.
And my spirit goes from out me, and I see it kneeling low,
By a broken marble, gleaming in the moonbeam's chilly flow,
Gazing through the misty distance, thus the marble saith to me:
'Sacred to the perished love of Ernest Gray and Ella Lee!'
Then it turns along the pathway that our spirits winged together,
Traces from its bright commencement through Elysian airs and flowers,
Love's fair stream that sang and rippled through the blissful fleeting hours.
Then it pauses where the fragments, of its broken hopes do lie;
Where the shadows gathered thicker and the stream moaned restlessly;
Then it lives again the anguish, that, that dreary hour did know,
When the Past seemed as a burial, and the Future failed to show
Aught the spirit yearned to live for and it heard the "never, never,"
Wailing from the far To Be and its light seemed lost forever.
Spirit, yielded thou to these fancies in the hey-day of thy youth,
When thy life is all before thee, and thy searching after Truth,
Must demand thy deathless powers, and if given, will be twined
Round thy brows a wreath of glory; in the annals of the mind
Shall be registered thy efforts, with the pure of every clime,
And thy name be sung forever by the great preserver Time.
Where all holy memories cluster in the Past's sunlit array,
Sounds the voice of my Redeemer, saying, "Me ye have always."
Now I will not cherish phantoms, worthy fonder souls than mine,
Those were long, long days of weakness, when my essence bowed to thine.
Yet those fond and vain delusions all have wept themselves away,
And my waken'd vision sees thee but a common kind of clay;
'Twas not well so many years should have found me loving one;
But the crushing spell is severed, and the hours of folly gone.

POLICE COURT—Jan. 24.

Two applications were made for warrants against individuals for selling liquor without license. The parties were referred to the City Attorney, who was not to be found.

A warrant was issued against Charles Tangeant (alias) for an alleged assault and battery upon H. M. Hubbard, on the 23d of January.

SUDDEN DEATH.—A young man named Jacob Eisman, a native of Bavaria, in Germany, died suddenly on Monday night. The deceased had been about two years in the city, and was in the employ of H. J. Nazro & Co., as porter. On Monday evening he ran to the fire on the Canal, and after getting home remarked to his wife that he had run too fast. He went to bed about ½ past 9, and was found dead in his bed at a little after eleven.

KILLED BY THE FALLING OF A BANK OF EARTH.—A young man named John Mountain, was accidentally killed yesterday morning near the depot, by the falling of a large bank of earth. The deceased was a native of Ireland, had resided in the city about four months and had been married only two months. Mountain was in the employ of Hugh Drum, removing dirt, when the bank caved down and completely crushed him.

THE WEATHER—FINE SLEIGHING.—Yesterday was a bright and beautiful winter day; the temperature moderate during the day, but growing colder towards nightfall. The sleighing, in and about the city, and all over the State, indeed, is superb, and with the high prices now paid for produce, must make business very lively.

FIRST-RATE HAMS.—We would call the attention of our readers to the advertisement in to-day's paper of *Sugar Cured Hams*, prepared by Wm. B. Alvord, at the Red warehouse.—Having tried one of those hams, we can recommend them as first rate, and as it is generally so difficult to procure a good article, we advise those in want of hams to lay in a supply from Mr. Alvord before they are all gone.—*Wisconsin.*

We can endorse the *Wisconsin's* "favorable allusion" to these Hams of Mr. ALVORD's curing. They are "all its fancy painted them." Such Hams need "no Tongues to tell" how good they are.

The "Minie" Rifle.

Most of our readers we presume have heard of the "Minie" Rifle, though few of them probably know much about the construction and advantages. From a correspondent of the New York Tribune, published in that paper a few days since, the Adrian Expositor has compiled some facts which will be interesting to those of our readers whose attention has been directed to such matters. There is nothing in the *appearance* of the rifle that differs from the common one. The fact is, there is no propriety in calling this invention the Minie *Rifle*. Properly speaking, it is the Minie *Ball*. The ball is cast oblong, with a conical point, similar to our "sling" balls, with the base or large end hollow for two-thirds the length of the ball. In the opening of the ball there is inserted a concave piece of iron, cut by a power press. On the explosion of the powder, this piece of iron is forced into the lead of the ball, which, at the time of loading is dropped loosely into the barrel of the rifle, and expands the ball in such a manner as to entirely stop all "windage," a desideratum which cannot be reached by the old method of forcing down a tight ball; and this is the whole secret of the "Minie Rifle."

It is ascertained that the report of the last mail from Acapulco having brought late news from California is unfounded.

Erie, Jan. 2

All quiet—it is rumored that the Marshal will be here to-morrow to commence building bridges. Latest news from Pittsburgh states that the Harbor Creek Rioters were discharged by Judge Irwin on bail. A current report from Harrisburgh says the bill repealing the charter of the Franklin Canal Co., was passed.

Phila., 23d.

Dr. R. Montgomery Bird, one of the Editors and proprietors of the U. S. Gazette, died this morning. Abel Reed's factory in this city was destroyed this morning. Loss $10,000.

New York, 23d.

A general European war is certain. The Paris *Moniteur* contains a circular from the minister of foreign affairs, addressed to all French legations on the eastern question. The document is in a moderate but very firm style. He declares that England, Austria and Russia solemnly recognized territorial integrity of the Ottoman empire and further that the affair at Sinope took place against all treaty provisions. From Russia she only desired natural guarantee to prevent Ottoman territory and flags from further attacks.

Authentic papers state that the French Government were dissatisfied with the evasive conduct of Austria and had addressed a strong letter of remonstrance, intimating that France will extend aid to Hungary, Italy, &c.

Paris papers report that the Czar had given orders for *immediately crossing the Danube.* The Sultan declared to the French Ambassador that he would rather abdicate than accept assistance against his subjects. Great excitement prevailed at Constantinople and a mob of 30,000 had assembled, declaring that the Constitution had been violated by the Council. Definite information relative to the actions of the Czar is daily expected.

London—Intelligence from St. Petersburgh of the 12th, states that the Emperor *formally rejected the Vienna Protocol* and note of the 5th, but consents to examine the Turkish proposition of the 20th, although he refuses to recognize the European intervention in Russian and Turkish affairs.

Instructions to commanders of fleets are that in meeting Russian ships, they will, in the names of their respective Governments, request Russian commanders to return to Sebastapole, where they will find further instructions from the Russian Government—on refusal to return, *force will be used.*

A Russian despatch says that the Turkish Army in Asia is totally disorganized and many troops killed—report not credited.

The *London Observer* says that agents are on the way to the U. S. to purchase ships and ammunition for the Russians.

In England there is much indignation against Prince Albert, particularly by the independent papers, and the public voice protest he is tool of Russia, and Aberdeen under his influence.

Russia, Austria and Germany matters are expected to come before Parliment soon.

France—At the New Years Levee the Emperor addressed the Foreign Ambassadors hopeing to be able to maintain the relations existing between France and other governments, and assured the Ottoman Ambassador of his good wishes, sympathy and efforts for Turkey.

The *Times'* correspondent reports 700,000 Frenchmen ready for Turkish camp, when required. Napoleon deserts English alliance, and Czar offers to consent to French annexation of Belgium and Egypt—Czar promising also to abandon the Bourbon cause.

The King of Belgium decried the total suppression of imports of duties on coal till further notice.

Sweden and Denmark have issued circulars declaring their neutrality, come what may.

Washington, Jan. 23.

SENATE—Douglass, from committee on Territories, reported a bill dividing Nebraska into two territories; one to be called Nebraska and the other Kanzas territory, and providing government for both. The attention of the committee had been called to the fact that the southern boundary of Nebraska, laid down in the bill heretofore reported as 40 degrees 30 minutes, would divide the Cherokee country; to avoid this the committee had determined to recommend 37 degrees as the southern boundary. The people of that county had two delegates here, who urged that the county be divided into two territories &c.

So far as he had been able to consult with them, the Wisconsin delegation were satisfied it would be better to have two territories. Accordingly a new bill was presented of this kind, as the question was one in which the General Government could not act. He said the gentlemen from Ohio had made a gross and unwarrantable attack upon the State, because small portions of the inhabitants had thought proper to right themselves by force.

New York, Jan. 24th.

The steamship *Northern Light*, from San Juan, arrived this morning with California dates to the 21st of Dec. She had 313 passengers and $850,000 in freight, brought down by the *Brother Jonathan.*

The *Sierra Nevada*, with the New York passengers of the 5th, arrived up at San Francisco on the 21st of Dec.

The *Oregon* left San Francisco on 31st for Panama, with 100 passengers and $400,000 in gold, and the mails.

The politicians are busy in speculating upon the course of the Legislature which will meet on the 2nd, in regard to the Senatorial question, removal of the Stamp Act, and the formation of a new State. There is some excitement prevailing on the subject of the Land speculation.

The farmers are sowing a good deal of wheat particularly in the Southern part of the State. A singular mortality is raging among birds and beasts—surveying parties sent out to examine the Sierra Nevada, to lay out a R. R., have reported that there is a practicable pass there—all the Pacific surveying parties have arrived. The miners speak well of the Southern route from Lower California.

We have dates to the 16th and the accounts are very contradictory. Papers however in saying that the fillibusters were besieged in a house, by 100 Mexicans—from the 5th to 14th when there being a cold rain, a party of fillibusters attacked the chilled and drowsy besiegers, who fled leaving arms, horses and brass field piece, and all their camp equipments, the fillibusters deny having robbed and pillaged the natives.

It was suspected that on the arrival of the Arita they would immediately descend on San Antonio.

The exports of gold, as manifested at the Custom House, are $60,873,565 for the year.

Washington, Jan. 24.

The bill granting a pension to the widow of Gen. Jacob Brown was taken up and passed.

Senator Douglas moved to take up the Nebraska bill.

A bill was introduced to grant the franking privilege to the Superintendent of the Coast Survey and his assistants.

PROSPECTUS OF

Thos. H. Benton's Great Work,

THIRTY YEAR'S VIEW, of the workings of the American Government. Published by D. APPLETON & Co., New York, and sold exclusively by subscription.

During the last thirty years there has been no important public measure in which this active and distinguished statesman has not taken an able and decisive part, and been familiar with the influences, whether secret or public, which have urged forward or opposed each. He is therefore well qualified to write the history of this period.

This work will be completed in two volumes, the first of which will be published early in the year 1854, and will be brought down to the close of the administration of Gen. Jackson, and will thus form a complete work by itself, containing about 700 double columns, royal 8 vo. pages, and a superbly engraved portrait of Senator Benton.

Price $2,50, payable on delivery of the book.

The book of subscription is together with specimen sheets, can be found at the law office of Messrs. TUCKER & GARVEY; and the Agent will soon give an opportunity to persons desirous of subscribing to do so at their residences and places of business throughout the city and county. jan12

Proof Positive—Skeptics Read—Testimony! Testimony!!

HAMPDEN, Feb. 24, 1846.

Messrs. J. Curtis, Jr., & Co.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the last year used in my practice, two dozen bottles of it, which I find of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing, so well calculated to operate so favorably in all diseases of the lungs as that is. I have known a hard, distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was thought to have a seated consumption, troubled with a hard distressing cough. I let him have one bottle, and he had two more at your Agent, Mr. Whitmore. After using the 3 bottles, he has become well, and now labors every day. He told me lately, that Hunter's Cough Syrup was the surest and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it to the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.
